Chromium organic

Glucose level and energy metabolism.

60 capsules
also available in tablets

Properties

The product complements the body's needs for this element. Chromium contributes to normal macronutrient metabolism. Chromium also helps in maintaining the proper level of glucose in the blood. The product has been enriched with niacin, which contributes to normal energy-yielding metabolism and to the reduction of tiredness and fatigue.

Indications

Chromium supplementation is especially recommended for people who have a high appetite for sweets, are overweight and obese, as well as for those who are in the process of slimming.

Daily portion (1 capsule):		
Chromium	200 µg	500%*
Niacin	16 mg	100%

Zinc 15 mg

Support for immunity

Properties

The product is a source of zinc and copper in the form of highly digestible amino acid chelates.

- Zinc** helps in:
- enhancing immunity and protects cells against oxidative stress
 - maintaining proper fertility, proper reproductive functions and helps in proper synthesis of DNA.
 - maintaining proper testosterone levels in the blood.
 - maintaining the proper metabolism of macronutrients, including fatty acids, carbohydrates and is essential in the proper synthesis of protein, which contributes to the maintenance of healthy bones, hair, nails and skin.
 - maintaining the proper metabolism of vitamin A, which is related to maintaining proper vision.

- Copper** helps with:
- proper functioning of the immune and nervous systems,
 - in maintaining proper pigmentation of hair and skin
 - proper transport of iron in the body.

Potassium iodide 200 ug

A source of iodine in a well-absorbed form

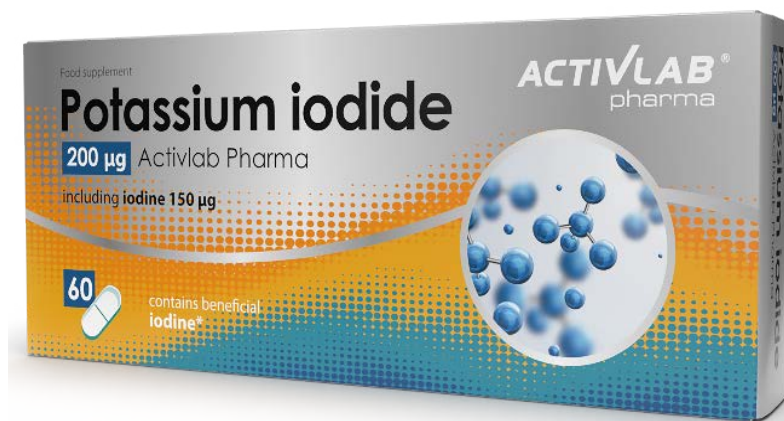

60
capsules

Properties

Potassium iodide 200 ug – product is a source of iodine in a well-absorbed, mineral form of potassium iodide.

Iodine is an essential micronutrient for humans and helps in the proper production of thyroid hormones and the proper functioning of the thyroid gland.

Nutritional value	1 capsule
Potassium iodide	200mg
including iodine	150mg

NEW

Potassium SR

Supports the proper blood pressure

100
capsules

Properties

The product is intended to supplement the diet with potassium, which is especially recommended for people who care about proper blood pressure.

Potassium:

- helps maintain normal blood pressure.
- helps in the proper functioning of the nervous system and muscles.
- The product is in the form of capsules with micropellets that prolong the release of the active substance - potassium chloride.

This form of the product ensures the availability of potassium for a longer period of time and does not irritate the stomach, making the product better tolerated by the body.

Selenium 200 µg

Immune system

60 capsules

Properties

Especially recommended in states of deficiency of this element. Selenium plays a very important role in the body. Among its many properties, strengthening of the immune system is the most important. After ingestion, the body increases the level of produced immune bodies, lymphocytes and macrophages. Selenium supports the body's fight against various bacteria and viruses. Especially it protects against cold sores and shingles. When taken regularly, the product reduces the risk of prostate, rectal, lung, cervical and ovarian cancer. Selenium helps stabilize the metabolism of the thyroid hormone, relieves menopausal symptoms and adds energy.

FerroBoost iron drops

Iron deficiency

30ml

Properties

FerroBoost Activlab Pharma are drops containing as much as 14 mg of iron in one portion (10 drops).

The iron is in the form of a chelate - iron (II) bisglycinate, which is a well-absorbed form of this element.

Iron deficiency may occur in:

- pregnant women and breastfeeding mothers,
- vegetarians or vegans,
- people who actively train,
- teenagers in a period of intensive growth,
- women with long and heavy periods,
- children or adults with reduced appetite,
- honorary blood donors.

Iron helps:

- in the proper production of red blood cells and hemoglobin
- in the proper transport of oxygen in the body
- in the process of cell division
- in proper energy metabolism
- in maintaining proper cognitive functions
- in the proper functioning of the immune system
- in reducing the feeling of tiredness and fatigue

Lutein EXTRA

Extra boost for your eye health

30
softgel
capsules

Properties

A dietary supplement in the form of easy-to-swallow softgel capsules containing natural crystalline lutein in the highest dose available on the market - 40 mg. The product has been enriched with zeaxanthin.

Advantages

- EXTRA HIGH lutein content per capsule - 40 mg
- Crystalline lutein of high bio-retention rate
- Easy dosage - 1 capsule daily
- Easy-to-handle pack ging
- Attractively priced

Indications

- Boosts vision in:
- Elderly people
 - People who work in artificial lighting
 - Office staff doing computer work
 - People exposed to intense sunlight

6 sachets

Properties

A product with a rich composition that takes into account the needs of the body of people after bariatric procedures.

Advantages

Easily digestible ingredients provide slimming bariatric patients with a quick and effective way to obtain the required daily dose of protein, fiber and essential vitamins and minerals. It can be the main source of daily nutrition and supports the weakened body in regeneration.

Indications

Recomed Bariatric is formulated specifically for Bariatric Surgeries including Sleeve Gastrectomy, Gastric Bypass, Lap Band, and Intra-gastric Balloon patients.

Recomed

Hydration for oncological patients

10 sachets

Properties

- Electrolytes for oncological patients in the vicinity of and during radio and chemotherapy requiring hydration.

Indications

- flushing out cytostatics from the body
- counteracting dehydration
- counteracting constipation.

Package contains one serving.

10 sachets

Advantages

- **L-arginine** – provides the necessary metabolites for the formation of collagen1.
- **Vitamin A** – plays an extremely important role in the production of collagen, cell division and differentiation. It helps maintain healthy skin and plays a role in the process of cell specialization.
- **Vitamin C** – helps in the proper production of collagen to ensure the proper functioning of the skin, and also helps protect cells against oxidative stress.
- **Zinc** in the form of amino acid chelate - takes part in the process of cell division, helps protect cells against oxidative stress and helps maintain healthy skin.

Properties

A specialized product containing: L-arginine, collagen hydrolyzate, as well as vitamins A and C and zinc chelate.

Recomed Drink

For dietary management in people with malnutrition

65 g

Properties

Nutritionally complete food product designed to meet the body's needs during the recovery period after illness, surgery, or for those who are malnourished or debilitated.

Advantages

RECOMED® DRINK contains all essential nutrients: protein, carbohydrates, fat, dietary fiber, and a full range of vitamins and minerals. The concentrated form of the product makes it easy to administer without additionally burdening the patient's body. The protein present in the product is high-quality whey protein concentrate (WPC) with a biological value (BV) of 104. The amino acid profile of the protein has also been optimized by adding amino acids in proportions necessary to increase the nutritional value of the protein and achieve the optimal proportions of essential amino acids (EAA) recommended for daily intake by the World Health Organization (WHO).

Indications

- For the dietary management of convalescence caused by:
- malnutrition
 - weakness
 - wasting of the body related to:
 - hospitalization
 - perioperative conditions
 - oncological diseases
 - or in elderly patients.

RECOMED® Thickener

60 capsules

Properties

RECOMED® Thickener is a food for special medical purposes for dietary treatment in swallowing disorders. A product for thickening liquid foods and beverages. RECOMED® Thickener is a powder product that does not change the taste and smell of thickened liquids and dishes. Contains xanthan gum.

RECOMED® Thickener is resistant to amylase, meaning that it is not broken down by the amylase enzyme, which naturally occurs in the body and is responsible for digesting carbohydrates, especially starch. In practice, this means that the product can survive the digestive process in the mouth and intestines, where amylase works, without being broken down into simple sugars. This is particularly important in terms of delayed carbohydrate absorption and better blood glucose control.

Recobios

Synbiotic

Properties

Recobios is a preparation developed in accordance with the recommendations of the World Gastroenterological Organization (WGO). Recobios includes, among others *Lactobacillus rhamnosus* GG bacterial strain showing a beneficial effect during radiation diarrhea and accompanying chemotherapy. Products contains ingredients that alleviate the symptoms of irritable bowel syndrome (IBS), such as abdominal pain, flatulence, abdominal discomfort, change of bowel movements (diarrhea or constipation). In addition, the strains of bacteria contained in Recobios support the eradication of *Helicobacter pylori* bacteria and reduce the side effects of antibiotic therapy (e.g. diarrhea). The gastro – resistant capsule protects the bacterial strains contained in the preparation against the action of gastric juice, thanks to which they reach the intestines, i.e. the place of their target activity.

20
Gastro - resistant capsules

Indications

- in irritable bowel syndrome,
- during eradication of *Helicobacter pylori* bacteria,
- during antibiotic therapy,
- during oncological radiotherapy and chemotherapy.

Daily portion	1 capsule
<i>Lactobacillus rhamnosus</i> GG	10 x 10 ⁹ CFU
<i>Lactobacillus plantarum</i>	10 x 10 ⁹ CFU
<i>Lactobacillus reuteri</i>	2 x 10 ⁸ CFU
<i>Bifidobacterium infantis</i>	1 x 10 ⁸ CFU

NEW

ALFASILVER

Containing 2.5% ionic silver

100ml

Properties

ALFASILVER is an absorbent mineral powder containing 2.5% ionic silver. It allows to control exudate, creating a clean and moist environment that supports physiological healing processes and protects the area of application from the proliferation of exogenous microflora. It is a dry spray for use on wounds, abrasions and burns.

ALFASILVER is indicated in case of:

- pressure sores,
- burns,
- surgical wounds,
- diabetic foot.

ALFASILVER advantages:

- protects and supports the natural healing process,
- soothes and calms,
- protects against infection.

NEW

RadioSKIN bath emulsion

For hair, skin, nails

300ml

Properties

RadioSkin bath emulsion cares for dry and irritated skin, even after radiotherapy and chemotherapy.

RadioSkin emulsion soothes skin irritations thanks to the nutrients it contains, creating a protective barrier. It gently cleanses and purifies the skin, while improving its appearance and condition, especially in the case of dry skin.

The beneficial effects of the **RadioSkin** product are provided by ingredients such as:

Panthenol - gives the skin a feeling of hydration,

Allantoin - has a beneficial effect on dry and irritated skin after radiotherapy and chemotherapy.

Licorice and marigold extract - soothes dry and irritated skin.

Bisabolol - relieves the symptoms of dry skin, improving its appearance.

Squalane and glycerin - noticeably moisturize, creating a protective barrier on the skin.

For washing the body of people after radiotherapy or chemotherapy.

NEW

Radioskin cream

Radioskin soothing and regenerating cream

150ml

Properties

RADIOSKIN is a skin cream with soothing, calming and regenerating effects, intended for the care of the face and body of people after radiotherapy or chemotherapy. RADIOSKIN, due to its very good absorption and nourishing properties, allows for the reduction of skin irritation. By greasing and moisturizing the skin, it supports the regeneration process.

- Regenerates and soothes skin irritations.
- Intensively moisturizes and restores comfort.
- Supports epidermis renewal processes.
- Ideal for sensitive, dry and irritated skin.
- Light, quickly absorbed consistency.

A great choice for those in need of effective skin care!

ProstACTIV EXTRA

Supports maintaining proper functioning of prostate.

Properties

Prostactiv Extra is a product addressed to men suffering from ailments related to prostate growth. The main components of the product:
Extract from the lateral fruit (*Sabal​is serrulatae*) – Relieves the troublesome symptoms of an enlarged prostate. Regular use of the preparation not only helps to maintain the normal condition of the prostate gland, but also leads to a decrease in the amount of urine in the bladder. Extract from the lateral fruit is also a source of fatty acids supporting reproductive functions.

Daily portion	1 capsule
Lateral fruit extract (<i>Sabal​is serrulatae</i>)	320 mg

30 capsules

60 capsules

Indications

- Alleviation of ailments associated with prostate hyperplasia such as:
- Weak urine flow
- Frequent pressure on the bladder
- Frequent urination
- In the night.

NEW

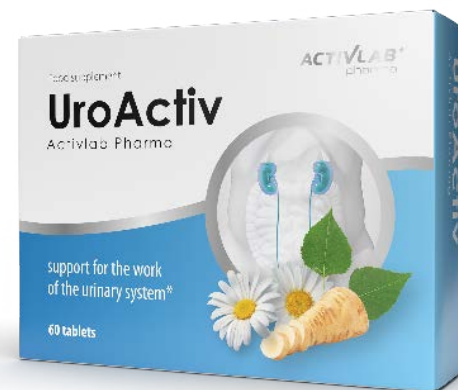

UroActiv

Support for the proper functioning of the urinary system

Properties

UROACTIV is a dietary supplement in tablet form, which is based on plant extracts and sodium citrate. The birch leaf extract contained in the product supports the proper functioning of the urinary tract and contributes to increased elimination of water from the body.

20 effervescent tablets

Nutritional information	Daily dose (3 tablets)
Powdered bean pericarp	234 mg
Birch Leaf Extract	141.3 mg
Parsley root extract	85.2 mg
Lingonberry Leaf Extract	78mg
Cranberry fruit extract	57mg
Sodium citrate	48mg
Bean pericarp extract	32.1 mg
Chamomile flower extract	24 mg

Cranberry EXTRA

In urinary tract infections

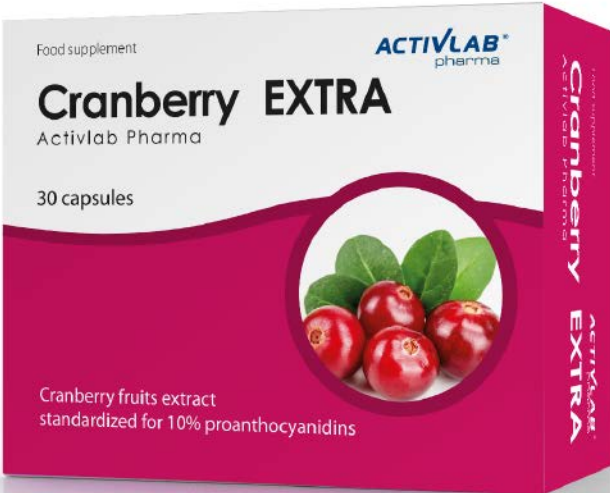

30
capsules

Properties

Product containing natural cranberry fruit extract standardized for 10% proanthocyanidins (PAC) and parsley extract. Cranberry is often used most often in urinary tract infections – it reduces the adhesion of bacteria to the walls of the bladder, while reducing the amount of these bacteria in the urine.

Indications

- with complaints related to inflammation of the urinary tract
- with recurrent urinary tract infections.
- for those with diabetes
- for people with a catheter fitted

Daily portion	1 capsule
Cranberry fruit extract (Vaccinium macrocarpon)	350 mg
in which proanthocyanidins (PAC)	35 mg
Parsley extract (Petroselinum crispum)	100 mg

Nephrolysin COMPLEX

Supports kidneys and urinary tracts functions

30
capsules

Properties

Nefrolizyna COMPLEX Activlab Pharma is a combination of 7 plant extracts that support the functioning of the urinary tract. The use of natural ingredients such as: parsley root, horsetail herb, couch grass rhizome, birch leaf, lovage root, goldenrod herb, knotweed herb:

1. Supports the proper functioning of the kidneys
2. Supports the proper functioning of the urinary tract
3. Contributes to the increase of the elimination of water from the body
4. Helps to eliminate pathogenic bacteria from the urinary tract.

Daily portion	1 capsule
parsley root extract	20,10 mg
horsetail herb extract	13,40 mg
couch grass rhizome extract	40,20 mg
lovage root extract	13,40 mg
goldenrod herb extract	11,50 mg
birch leaf extract	26,80 mg
knotweed herb extract	320 mg

Proctoactiv

Strengthening the veins

Properties

ProctoActiv Activlab Pharma is a product containing diosmin and hesperidin in its composition. Supplementing the diet with these ingredients is especially recommended to strengthen the veins, in the treatment of venous insufficiency and haemorrhoids.

Hesperidin has vascular protective and anti – inflammatory properties, which is especially important in the treatment of haemorrhoids.

Diosmin is anti – haemorrhagic, and its use helps to relieve persistent itching and burning – bothersome symptoms resulting from haemorrhoids.

Daily portion	1 capsule
Diosmin	450 mg
Hesperidin	50 mg

20 capsules

ColoNormax EXTRA

Regulates intestinal function, prevents constipation, cleanses the intestines and whole organism

300 g of powder/jar

Daily portion	10 g
Seed coat of the Plantago ovata plant (Plantago ovata)	5,00 g
Chicory inulin (Cichorium intybus)	4,75 g
Lactobacillus acidophilus	1 x 10 ⁸ cfu
Bifidobacterium lactis	1 x 10 ⁸ cfu

Properties

A set of natural ingredients that provides intestinal health.

Advantages

- Contains the seed coat of the Plantago ovata plant, chicory inulin (Cichorium intybus) and probiotic bacteria of the genus Lactobacillus acidophilus and Bifidobacterium lactis.
- Has a delicious apple flavour
- Package containing 100 grams of PRODUCT EXTRA

Indications

- In constipation
- In maintaining healthy intestines
- Helps to control weight
- Helps regulate blood sugar levels

DebuActiv Forte

60
gastro-resistant
capsules

Sodium butyrate is recommended for dietary management:

- with intestinal hypersensitivity (irritable bowel syndrome - IBS)
- in intestinal microflora disorders
- Elimination of toxins
- in diarrhea after antibiotic therapy
- in intestinal infections and inflammatory diseases of the gastric mucosa
- in deficiencies of short-chain fatty acids,
- in patients after anti-cancer treatment (including intestinal inflammation after radiotherapy).

Properties

The product in the form of gastro-resistant capsules containing sodium butyric acid (sodium butyrate - 300 mg) in the form of microgranules. Butyric acid is the basic energy material for the epithelium of the digestive tract.

Daily portion	1 capsule	2 capsules
Sodium butyrate	300 mg	600 mg
of which butyric acid	240 mg	480 mg

DebuActiv 150

60
gastro-resistant
capsules

Irritable Bowel Syndrome - IBS

Properties

Sodium butyrate in the form of microgranules - an active substance placed in a lipid matrix. Gradual, slow release over the entire length of the intestine. Neutralization of taste and aroma properties

Daily portion (1 capsule):	
sodium butyrate	150 mg
in which butyric acid	120 mg

Indications:

- Irritable Bowel Syndrome (IBS)
- Functional gastrointestinal disorders such as: chronic constipation, stomach pain, flatulence, diarrhea
- In disorders of the intestinal flora, after long-term antibiotic therapy
- In food deficiencies (insufficient fiber supply)
- In diseases of the large intestine with atrophic changes stomach mucose membrane
- In absorption disorders leading to a deficiency of ingredients nutrition, weight loss or abnormal growth in children

NEW

EpsuActiv forte

Bloating, feeling of fullness, gas, belching

30
softgel
capsules

Properties

The medical device **EpsuActiv FORTE** Activlab Pharma is intended for use in relieving the feeling of fullness, bloating, belching, ailments related to excessive accumulation of gases and air in the digestive tract, which cause tension and pressure in the intestines. EpsuActiv FORTE Activlab Pharma reduces the surface tension of gas bubbles in the intestines, making it easier to burst and then expel them. Simethicone has a surface effect and does not enter into any chemical reactions. It is a pharmacologically and physiologically neutral substance.

EpsuActiv FORTE Activlab Pharma is intended for use as an aid in preparing patients for diagnostic tests of the abdominal cavity (ultrasound, endoscopy, radiography and colonoscopy), in order to remove gases and air from the digestive tract, which improves the quality of the obtained images.

KreoActiv Digestion

Supports digestion

50
gastro-resistant
capsules

Properties

Food for special medical purposes. The product contains **pork pancreatine in an gastro – resistant capsule**. After dissolving the capsule in the small intestine, enzymes with lipolytic, amylolytic and proteolytic activity are released, which allow digestion of fats, starch and proteins.

Indications

For the dietary management of digestive disorders in the exocrine pancreatic insufficiency in children and adults that relates to:

- cystic fibrosis,
- chronic pancreatitis,
- conditio after removal of pancreas (pancreatectomy),
- condition after removing the stomach (gastrectomy),
- pancreatic cancer,
- condition following gastrointestinal anastomosis (e.g. gastroenterostomy),
- narrowing of the pancreatic duct or bile common duct (e.g. due to cancer),
- Shwachmana-Diamonda syndrome,
- condition following an attack of acute pancreatitis and initiation of enteral or oral nutrition.

1 gastro – resistant capsule contains 150 mg of pancreatine with the activity of:

lipase	10 000 j. Ph.Eur.
amylase	8 000 j. Ph.Eur.
proteases	600 j. Ph.Eur.

Enterobiotix Forte 500 mg

20 capsules

Properties

- Enterobiotix FORTE 500 mg - a product with double the content* of probiotic yeast - up to 500 mg in one capsule.
- **Saccharomyces boulardii** probiotic yeast is intended for use during and after antibiotic therapy to supplement the gastrointestinal microflora.
- **Saccharomyces boulardii** is also used before and during travel, especially to other climate zones, when there are changes in diet, climate and contact with different bacterial flora.

De Luxe Beet Shot

Beetroot juice concentrate supporting endurance

80ml

Properties

DE LUXE BEET SHOT is a dietary supplement in the form of a drink, containing concentrated beetroot juice with added citrulline. One shot contains an average of 400 mg of natural nitrates, which are precursors for nitric oxide (NO). This gas hormone significantly increases training capabilities. Nitrates have been classified as group A supplements, as the best choice for athletes, because their effectiveness and safety are confirmed by many studies [1].

Nutritional information	1 shot 80 ml (daily portion)
Beetroot juice concentrate	80ml
- including betaine (trimethylglycine)	550mg
- including nitrates	400mg
Citrulline	2000mg

DE LUXE CHERRY SHOT is a product for:

- endurance training (running, cycling, swimming),
- strength training (bodybuilding, fitness, cross-fit),
- practicing combat sports (MMA, boxing, karate).

2 ml

Properties

Hyaluronic acid (HA) is the main GAG present in the amorphous interstitial matrix of connective tissue. L-Proline 30mg/ml (3%) L-Proline is abundant in collagen. Supplementing of L-Proline can provide a raw material for the synthesis of collagen. The L-form of proline (2-pyrrolidine carboxylic acid) is a naturally occurring amino acid and is contained in large amounts in collagen.

Soft tissue injection 2ml.

StructuActiv 500

High dose of chondroitin sulphate

60 capsules

Properties

A product containing a high dose of chondroitin sulphate - 500 mg for the protection of joints.

Advantages

- Contains a high dose of the active ingredient
- It has an attractive price

Indications

- In relieving symptoms of osteoarthritis
- In inflammatory bones and joints
- Aids in the regeneration of articular cartilage
- In the case of joint pain

Daily portion (2 capsules):	
sodium chondroitin sulphate	1000 mg

StructuActiv Forte

60 capsules

Properties

The product contains 600 mg of acid chondroitin sulfate in one capsule.

Daily portion	
2 capsule	
Sodium chondroitin sulfate	1200 mg

Osteoperos 1000/ D3

Healthy and strong bones, prevention of osteoporosis

100 capsules

Properties

Calcium is an element necessary for the proper functioning of the body. It is involved in the formation and mineralization of bone tissue and is needed to maintain healthy, strong bones and teeth. It also contributes to normal blood clotting and conditions proper nerve conduction and contraction of striated muscles. Maintains the electrolyte balance of the body, also affects the efficiency of the heart muscle. Vitamin D3 – 2000 iu, which helps in the proper absorption of calcium from gastrointestinal tract.

ArtronActiv

30
sachets

Properties

The active ingredients of the product are glucosamine sulphate, a salt of glucosamine amino monosaccharide naturally occurring in the human body, and vitamin C, which helps in the proper production of collagen to ensure the proper functioning of cartilage

Daily portion 1 sachet (5 g):	
Glucosamine sulphate	1500 mg
Vitamin C	80 mg(100%*)

* % of nutrient reference value

OsteoActiv

40
capsules

Healthy bones and teeth

Properties

OsteoActiv contains organic components of the bone matrix along with hydroxyapatite microcrystals, in which calcium and phosphorus are present in a physiological, balanced proportion.

Ossein has a positive effect on the formation of bone tissue. The ossein and hydroxyapatite complex is absorbed from the intestines slowly, continuously, without causing fluctuations in the concentration of calcium in the blood. Slow dissolution of the complex causes prolonged absorption of active ingredients. Calcium and phosphorus supplementation is especially recommended for people in periods of increased demand for product ingredients, e.g.: in the elderly, in post-menopausal women, after using steroids, during pregnancy and breastfeeding, helpful after bone fractures.

RECOMMENDED DAILY PORTION:
Daily dose – 2 capsules. Do not exceed recommended daily portion.

UNIPRO[®]

Collagen Beauty

20
effervescent
tablets

Properties

BEAUTY collagen is a product developed for women. This is excellent support for skin and protection against signs of aging. It contains up to 500 mg of high-class MARINE Collagen, which is known as an ingredient improving skin firmness and elasticity. Vitamin C contained in the product supports the synthesis of natural collagen and is strong antioxidant, protecting the skin against free radicals. Studies show that it's free radicals damage the internal structures of the skin, leading to its early aging. Rosehip fruit extract is a source of natural vitamin C and carotene. These two substances have an extremely strong brightening effect on the skin. This promotes brightening pigmentation spots, freckles, alignment and revitalization of skin tone. Hyaluronic acid increases skin hydration and reduces the amount visible wrinkles, and the skin becomes smoother and more elastic. The product also contains the necessary electrolytes, and a convenient form of effervescent tablets allows for effective hydration of the body and including skin hydration.

Coenzyme Q10 100 mg

High content of active ingredient in the supplement, up to 100 mg!

30
softgel
capsules

Properties

Coenzyme Q10 plays a fundamental role in the body's energy processes, supporting the functioning of the heart and muscles. It is one of the most important components of the respiratory chain. Its natural production in the body begins to decline after the age of 35. Factors such as intense physical activity and accelerated metabolism can further increase the need for this valuable ingredient.

The Coenzyme Q10 100 mg supplement from Activlab is the perfect choice for all people who are looking for effective support for their body in this area.

The distinguishing feature of our product is the high content of the active ingredient. The presented supplement contains as much as 100 mg of coenzyme Q10 in each capsule! It has a beneficial effect on health, providing the body with the optimal amount of coenzyme, which is a product of natural fermentation.

The Coenzyme Q10 100 mg package contains 30 softgel capsules with medium chain triglycerides (MCT). The oil capsule guarantees better absorption, because Coenzyme Q10 is fat-soluble.

Breastfeeding Support

Stimulation of lactation

30
capsules

Properties

The rich composition of the natural herbs and lecithin ensures the stimulation of lactation and provides the right amount of nutrients.

Lecithin reduces the viscosity of your breast milk, making it less likely to clog milk ducts in your breast.

Anise can be used to treat clogged ducts and other problems in the milk glands, by maintaining constant milk flow.

Blessed thistle, fennel, moringa and hops are commonly used as an herbal galactagogue. A galactagogue is a food, herb, or medication that increases the flow of breast milk, usually by increasing prolactin levels.

Fenugreek, a type of seed, can help increase your breast milk supply.

Nutrition facts - daily portion (1 capsule)	
Lecithin	100 mg
Anise (<i>Pimpinella anisum</i>) ext.	100 mg
Blessed Thistle (<i>Cnicus benedictus</i>) ext.	100 mg
Fennel (<i>Foeniculum vulgare</i>) ext.	100 mg

Magnesium Vit

Magnesium and vitamin B6

20
effervescent
tablets

Properties

Discover the power of magnesium and vitamin B6 in our effervescent tablets – without added sugar!

An excellent product for diabetics and people on a low-carbohydrate diet.

Magnesium is an extremely important mineral that plays a key role in many processes occurring in the body. It supports the health of muscles, the nervous system and helps maintain electrolyte balance.

Vitamin B6 helps with energy metabolism, red blood cell production and supports the health of the nervous system. Magnesium and vitamin B6 contribute to reducing the feeling of fatigue and weariness. Our tablets are easy to use – just dissolve one tablet in a glass of water and then enjoy a refreshing drink with additional health benefits. See for yourself how our effervescent tablets with magnesium and vitamin B6 can affect your well-being. Choose quality and take care of your health without added sugar.

Dissolve 1 tablet in a glass (200 ml) water. Use once a day.

ElectroVit PROBIOTICS

20
effervescent
tablets

Properties

ElectroVit PROBIOTIC is a product containing a set of enriched electrolytes **6 strains of probiotic bacteria**: *Bifidobacterium infantis* BI02, *Bifidobacterium longum* BL-G301, *Lactobacillus acidophilus* LA02, *Lactobacillus helveticus* LH060, *Lactobacillus reuteri* LRE02, *Lactobacillus rhamnosus* GG and vitamin C. Vitamin C contained in the product helps in the proper functioning of the immune system.

Indications

Electrolytes and probiotics are especially recommended for people suffering from fever, diarrhea and vomiting. During fever, vomiting, diarrhea, the body loses fluids - not only water, but also the ions contained in it. Therefore, to prevent dehydration, it is recommended to drink plenty of fluids and replenish electrolytes.

- **Potassium** helps in the proper functioning of the neuromuscular system due to the fact that it is involved in the conduction of nerve impulses.
- **Chloride** is the basic anionic electrolyte.
- **Magnesium** helps maintain electrolyte balance and contributes to the reduction of tiredness and fatigue.

WszOff

Medical products

100ml

Properties

The medical product **WszOFF** Activlab Pharma anti-lice shampoo is recommended to prevent the development of lice, treat lice and alleviate the course of human head lice infestation. The product is intended for children from 3 years of age and adults.

Mechanism of action:

After applying the product, a coating is created on the scalp that deprives the lice and their nits of air and causes them to dehydrate. During the use of the product, these parasites suffocate and their larvae die.

- Lice shampoo
- For children from 3 years of age and adults
- Guaranteed effectiveness from the first use

Alantella

Daily care for different kinds of skin

50 ml

Semi-fat cream

Alantella Semi-fat protective cream with vitamins A+E is intended for the care and protection of the entire body. Leaves the skin moisturized and silky. It eliminates the feeling of dry skin and reduces exfoliation of the epidermis. The cream is suitable for the care of atopic, dry, rough and sensitive skin. Purpose: The product is suitable for daily skin care of infants, children and adults.

Moisturizing cream

Alantella Moisturizing cream – intended for the care of dry and damaged skin. Moisturizes, softens and regenerates the epidermis. Gives the skin smoothness. It protects against the harmful effects of external factors. Urea moisturizes and softens the skin. Allantoin accelerates the regeneration of the epidermis. D-panthenol provides the skin with moisture.

Exfoliating cream

Alantella Exfoliating Cream is a cosmetic recommended especially for the care of dry, calloused, cracked and rough skin. It softens calloused epidermis, facilitates the removal of dead skin and normalizes the exfoliation process, and supports the regeneration of the foot skin. Perfectly moisturizes, elasticizes and smoothes the skin. The product contains 30% urea and lactic acid.

Alantella lipstick

Regeneration for lips

4,9 g

Alantella Protective

Alantella Protective Lipstick SPF 30 is intended for the care and regeneration of the lips. It protects against the effects of the sun, wind and frost. It intensely moisturises and nourishes the lips, leaving them soft and supple. Contains Shea Butter, Cocoa Butter, Mango Butter and Vitamin E.
USAGE: Apply to lips before sun exposure. Repeat application as often as necessary to ensure lips are constantly covered with a protective layer of lipstick. For women, men and children from 3 years.
Watermelon flavor.

Alantella lipstick

Regeneration for lips

4,9 g

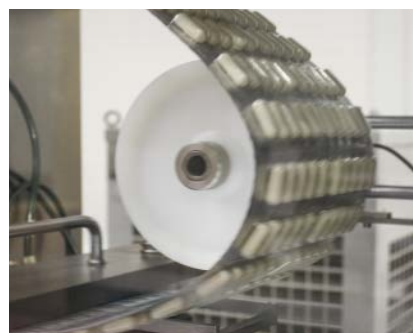

Alantella Regeneration

Alantella Lipstick REGENERATION is an instant SOS. It regenerates even the most chapped lips. Shea butter and beeswax reduce the dryness of the lips and give a feeling of hydration, nourishment and lubrication. Nourishes lips after herpes. Daily use protects the delicate skin of the lips from the sun, wind and frost.
USAGE: Apply evenly to lips. Repeat as needed. Product for year-round lip care for cracked, chapped and post-herpetic skin. For women, men and children from 3 years.
Vanilla flavor.
